TURKEY
Sperm Quality Analyzers

Advanced Agricultural Technologies

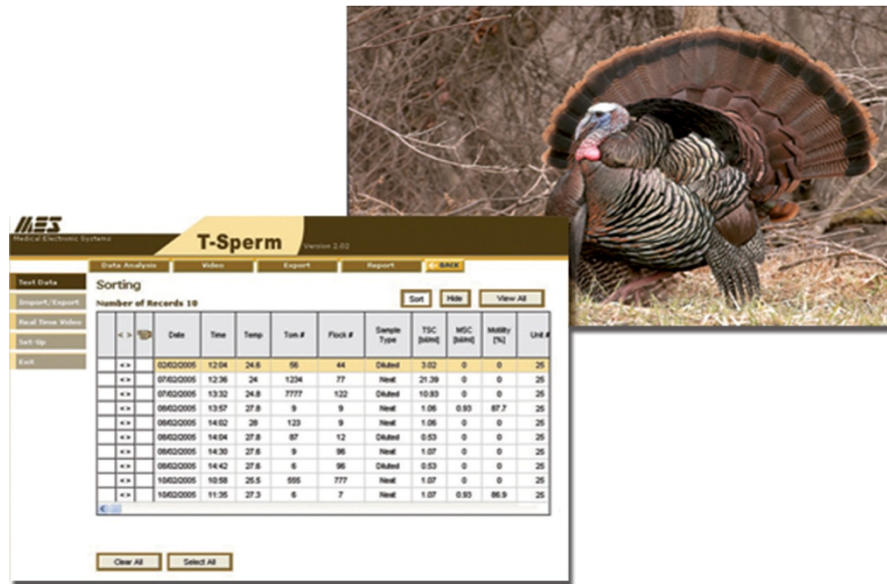

A-Tech, the VETERINARY division of Medical Electronic Systems produces the following line of Turkey SPERM QUALITY ANALYZERS:

SQA™Vt Features:

- Tests neat and diluted semen
- Computer interface
- T-Sperm™ software for dosing and flock management/reports
- On-board microscope and printer
- Re-usable, washable testing capillary

SQA-Vt Turkey Sperm Analyzer

Tests NEAT and DILUTED semen

The screenshot displays the 'T-Sperm' software interface. At the top, it says 'T-Sperm Version 2.03'. Below this, there are tabs for 'Data Analysis', 'Video', 'Export', and 'Report'. The main window shows a 'Sorting' mode with a table of records. The table has columns for Date, Time, Temp, Tom #, Flock #, Sample Type, TSC (M/M), MSC (M/M), Motility (%), and LHM #. Below the table are 'Clear All' and 'Select All' buttons. To the right of the screenshot is a photograph of a turkey with its tail feathers fanned out.

	Date	Time	Temp	Tom #	Flock #	Sample Type	TSC (M/M)	MSC (M/M)	Motility (%)	LHM #
